Revolutionizing Tiles with Multi Dimensional 3D Technology

Multi Dimensional 3D Technology is a breakthrough in tile manufacturing, designed to create precisely defined edges, intricate surface textures, and seamless patterns with unmatched accuracy. Using advanced digital shaping and high-precision cutting techniques, this technology enhances the overall dimensional accuracy and surface detailing, resulting in tiles with crisp edges, refined finishes, and perfect geometric consistency. Whether it's natural stone textures, wood grains, or abstract patterns, DG Shape ensures a flawless and sophisticated look.

Beyond aesthetics, DG Shape Technology enhances durability, edge strength, and installation efficiency, making it ideal for high-traffic areas and large projects. Its advanced shaping ensures precision-cut edges and superior integrity, reducing chipping and wear over time.

DG Shape Technology enables seamless joint alignments, minimizing grout lines for a smooth, continuous surface. With cutting-edge innovation and craftsmanship, it redefines modern tile design, delivering a flawless, sophisticated finish.

Stone Veins

Inspired by the rich detailing of natural stone, the Stone Veins Collection brings rugged charm and modern sophistication into perfect balance. Its multi-dimensional 3D structure creates a tactile depth that not only looks stunning but feels substantial underfoot. The matte finish enhances the realistic stone effect, giving spaces a grounded and earthy vibe.

Each tile showcases bold, intricate veining that captures the raw, untouched beauty of stone, while still being refined enough for interior settings. The textural interplay between highs and lows creates shadows and depth, adding character and intensity to walls and floors. Stone Veins celebrates imperfection in the most artistic way possible.

Perfect for feature walls, high-impact flooring, and accent zones in both residential and commercial spaces, this collection is for those who appreciate texture-driven design. With Stone Veins, your space becomes a tribute to the untamed beauty of nature, reimagined through the lens of contemporary craftsmanship.

WoodLux

WoodLux is where comfort meets craftsmanship. This collection replicates the warmth of natural timber through hyper-realistic wood grains, while also offering the technical edge of a 3D anti-slip surface. The design radiates rustic charm, while the modern grip surface ensures safety and usability in high-traffic or moisture-prone areas.

The tones in the WoodLux range from golden ambers to deep oaks, providing a versatile palette that can suit traditional, Scandinavian, or contemporary themes. The tactile finish not only looks authentic but also feels like genuine wood underfoot, giving your interiors a touch of nature without the worry of maintenance.

Ideal for bathrooms, balconies, kitchens, or living spaces, WoodLux adds visual and practical warmth. Whether used in homes, cafes, or retail outlets, it delivers the emotional comfort of wood with the reliability of tile. It's where texture, tone, and technology unite to create something truly timeless.

Pigmento

Pigmento is designed for high-performance environments that demand both safety and aesthetics. Engineered with a Grippon surface technology, this collection ensures maximum slip resistance, making it ideal for wet areas, commercial zones, and outdoor spaces. Its performance, however, doesn't come at the cost of style.

With a clean, minimal surface design, Pigmento offers a smooth visual canvas that blends effortlessly with any décor theme, from industrial to minimalist and from urban to tropical. The subdued tones enhance practicality while offering flexibility for creative spatial planning.

Ideal for kitchens, bathrooms, terraces, and public spaces, Pigmento is a go-to for architects and designers who prioritize user safety without compromising on appearance. When form meets function, the result is a surface that looks as smart as it performs.

Drape

Drape is all about layered depth and flowing movement, created through advanced 3D surface techniques that bring walls to life. The tiles are designed to mimic soft folds, architectural textures, or even sculpted fabric, giving a sense of motion and drama to static surfaces.

This collection is bold yet sophisticated, its textural variations offer a play of shadow and light, depending on the time of day and angle of view. The matte surface grounds the design, ensuring it never feels overbearing but always makes a statement.

Best suited for large wall areas, statement partitions, or lobbies, Drape turns your surface into a visual sculpture. It's made for spaces that need a strong architectural voice and where texture plays a central role in storytelling.
